

Flexible Plastics Recycling Scheme

Pet food pouches and other flexible plastics are not currently recyclable at home, as they're made from multiple layers of different materials designed to keep your pet's food fresh. To address this, we introduced our pet pouch recycling scheme in November 2020, making it easier for customers to dispose of them responsibly. By returning your empty packaging to store, you're helping to keep it out of landfill and supporting its recycling into something new.

All you need to do is:

- Make sure your pouches are empty, clean and dry
- Bring them to your nearest Pets at Home store
- Drop them in our recycling bins located in the store

Our recycling points are here for everyone; No purchase is needed and all brands are accepted.
